Rois Light Italic Medium Italic Bold Italic Black Italic -Extra

Rois is a powerful extended sans serif typeface inspired by heavy headline typefaces. A concise expression collected by classical poster design led into the essential architecture of Rois. Brutalistic tendencies like the disclosure and visibility of the construction and a necessarily present attitude of uncompromisingness and radicalism pour into what we believe in Rois.

In tradition to all NEW LETTERS typefaces, small characteristics like curve shaped ,i' stems or a slightly closed ,s', Rois expresses its unique character. Through its width proportions of uppercase and lowercase letters, Rois has an extended appearance. A small descender emphasize this appearance. Through its extended proportions, Rois is situated in headline usage. The family comes in six different weights.
